

Page 2 of December 2017 Rolette County Wellness coalition minutes

- The vision screenings have been completed in 3 of the 4 county schools. Rolette will be visited after the first of the year.
- Renae stated shingles vaccine will be available after the first of the year and will be focusing on people before they reach Medicare D coverage.
- Julie stated Relay for life will have some changes. American Cancer society will no longer be assisting with events unless contributions are over \$50,000. Rolla (Rolette County) will probably still do an event but make changes and possibly use the golf course. Relay for Life will still encourage sponsorships and use the luminaries. They will be visiting with the Rolla golf board. The event most likely will still be the first Friday in June. Rolette County event usually brings in about \$32-33,000 per event.
- Julie also stated Laura is going to Dunseith School on Wednesday afternoons. At this point still trying to find a good place to be located that doesn't cost rent money.

Secretary,

Judy Martinson

Next meeting-January 9, 2018
